INDEPENDENT AUDITOR'S REPORT

To the Board of School Directors Octorara Area School District Atglen, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Octorara Area School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Succeed With Confidence 1

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Octorara Area School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule for the general fund and the pension and other postemployment benefit information on pages 79 through 83, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Octorara Area School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Octorara Area School District Management's Discussion and Analysis (MD&A) June 30, 2020

AUN Number: 124156503

Management's Discussion and Analysis (MD&A) for the Octorara Area School District's financial performance provides an overall review of the School's financial activities for the fiscal year ended June 30, 2020. The intent of the MD&A is to look at the financial performance as a whole. Readers should review the basic financial statements and corresponding notes to the financial statements to enhance their understanding of the School's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

SCHOOL DISTRICT

Octorara Area School District is a public school district in Chester County, Pennsylvania organized under the Public School Code of Pennsylvania. The School provides educational programs from kindergarten through twelfth grade to students who are residents of the school district and non-residents on a tuition basis. The District maintains five school buildings under the following grade structure (K-2, 3-4, 5-6, 7-8, and 9-12).

MISSION STATEMENT

Octorara Area School District, through a partnership among school, community and family, is to promote educational excellence in a safe, secure environment, empowering our students with the skills necessary to be successful, responsible members of society.

SCHOOL DISTRICT FINANCIAL HISTORY

The School District and its predecessors have never defaulted on the payment of lease rentals or debt service. The status of the School District's present indebtedness is shown in note 8 of the notes to basic financial statements section.

FINANCIAL HIGHLIGHTS

Effective March 16, 2020, the Governor of Pennsylvania closed all K-12 Pennsylvania schools, due to the COVID-19 pandemic, initially for ten days, but then was later extended through the remainder of the 2019-2020 school year. In addition, on March 27, 2020, Pennsylvania Act 13 of 2020 was signed into law, which included several provisions, including, but not limited to, continuity of education, waiver of the 180-day school term requirement and required full compensation to employees during the closure. This Act and the requirements within it expired on June 30, 2020. Also in March 2020, the United States Department of Agriculture and the Pennsylvania Department of Education's Division of Food and Nutrition provided waivers that allowed closed schools to serve meals to students through the National School Lunch Program's Seamless Summer Option or Summer Food Service Program, which provides federal subsidies for meals served.

Overall the District ended the 2019-20 fiscal year with a \$5,014,721 increase in overall net position. The District's net position totaled (\$36,716,502) at June 30, 2020. The District's general fund ended the 2019-20 fiscal year with an increase of \$2,233,926. The 2019-20 budget approved in June 2019 included the appropriation of \$1.68 million of fund balance to balance the budget. The majority of the positive variance between actual results and the budgeted use of fund balance can be attributed to budgetary savings in salary and benefits, instructional supplies and transportation, all due to the COVID-19 closure. The District also experienced minimal positive variances in local, state and federal revenues. The general fund reported a positive fund balance of \$10,530,642.

FUTURE FINANCING

In August of 2011, the majority of the additions and renovations were completed on the Octorara High School. Other than routine repairs and maintenance, no future projects have been planned. During the 2014-15 fiscal year, the District refinanced the 2010 A and 2010 B Series Bonds and recognized a savings of \$754,517 that was spread over the 2014-15 and 2015-16 fiscal years. During the 2015 -16 fiscal year, the District refinanced the 2011 Series Bond and recognized a savings of \$324,000. During the 2016 – 17 fiscal year, the District refinanced a portion of the 2009 Series Bonds and recognized a savings of \$1.6 million over 15 years. In 2020 the District refinanced all existing bond issues, borrowed \$7,528,172 to fund deferred maintenance projects and recognized a savings of \$1,378,528. The District will continue to monitor the market and take advantage of future bond refinancing opportunities.

FINANCIAL STATEMENTS

The financial statements consist of three parts: Management Discussion and Analysis (this section), the basic financial statements and required supplementary information (RSI). The basic financial statements include two kinds of statements that present different views of Octorara Area School District.

- The first two statements are government-wide financial statements the Statement of Net position and the Statement of Activities. These provide both long-term and short-term information about the School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the activities that the School operates like a business. For the School, this is our Food Service Fund and our Internal Service Fund, used to manage the District's self insurance program.
- Fiduciary fund statements provide information about financial relationships where the School acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and reports the financial statements with the comparison of Octorara Area School District's budget for the year.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

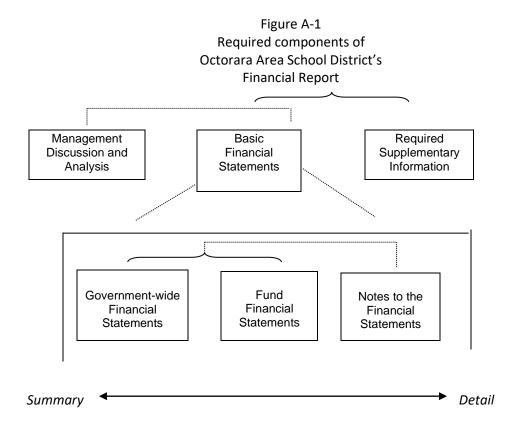

Figure A-2 summarizes the major features of the financial statements, including the portion of the Program they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of Octorara Area School District's Government-wide and Fund Financial Statements Fund Statements

Government-

	Wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire School (except fiduciary funds).	The activities of the School that is not proprietary or fiduciary, such as education, administration and community services.	An activity the School operates similar to private business – Food Services and Production.	Instances in which the School is the trustee or agent to someone else's resources – Scholarship Funds.
Required financial statements.	Statement of net position Statement of activities.	Balance Sheet Statement of revenues, expenditures, and changes in fund balance.	Statement of net position Statement of revenues, expenses and changes in net position Statement of cash flows.	Statement of net position Statement of changes in net position.
Accounting basis and measurement focus.	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.	Accrual accounting and economic resources focus.	Accrual accounting and economic resources focus.
Type of asset/liability information.	All assets and liabilities, both financial and capital, current and noncurrent, and deferred inflows and outflows of resources	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or noncurrent liabilities included.	All assets and liabilities, both financial and capital, current and noncurrent, and deferred inflows and outflows of resources	All assets and liabilities, both short-term and long-term.
Type of inflow- outflow information.	All revenues and expenses during year, regardless of when cash is received or paid.	A revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenues and expenses during year, regardless of when cash is received or paid.	All revenues and expenses during year, regardless of when cash is received or paid.

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Statements

The government-wide statements report information about the school as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the school's net position and how they have changed. Net position, the difference between the school's assets, deferred outflows of resources, liabilities, and deferred inflows of resources are one way to measure the school's financial health or position.

- Over time, increases or decreases in the school's net position are an indication of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the school, you need to consider additional factors, such as changes in the Commonwealth of Pennsylvania contributions, increase of the Public School Employee's Retirement contributions, and the projected enrollment of the students.

The government-wide financial statements of the school are divided into two categories:

- Governmental activities All of the school's basic services are included here, such as instruction, administration and community services. Local tax revenue and state subsidies finance most of these activities.
- Business type activities —The school operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation. The school also operates an internal service fund to account for a self-insurance health plan. All health costs are paid by the internal service fund which in turn charges other funds a premium for employee health benefits.

Fund Financial Statements

The District's fund financial statements provide more detailed information about the districts funds, focusing on its most significant or "major" funds – not the district as a whole. Some funds are required by state law and by bond requirements.

• Governmental funds — Most of the school's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the school's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

- Proprietary funds These funds are used to account for the school's activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the School charges customers for services it provides whether to outside customers or to other units in the school these services are generally reported in proprietary funds. The Food Service Fund and the Internal Service Fund are the School's proprietary funds and are the same as the business-type activities reported in the government-wide statements, but provide more detail and additional information, such as cash flows.
- Fiduciary funds The school is the trustee, or fiduciary, for assets that belong to others, such as scholarship funds or student activity funds. The School is responsible for ensuring that the assets reported in these funds, are used only for their intended purposes and by those to whom the assets belong. The School excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

The School's total net position was \$(36,716,502) at June 30, 2020.

Table A-1

Unrestricted	(58,360,896)	(60,505,766)	(559,387)	(522,036)	(58,920,283)	(61,027,802)		
TOTAL NET POSITION	\$ (36,207,416)	\$ (41,278,146)	\$ (509,086)	\$ (453,077)	\$ (36,716,502)	\$(41,731,223)		

Most of the School's deficit net position is pension liability. The pension liability was added to the District's financial statements in 2014-2015 to be in conformity with generally accepted accounting principles by adopting Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions and No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Adoption of these statements required the District to reduce the 2013-2014 fiscal year net position by \$54,728,071 to account for the pension liability from prior years.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the School's activities that are supported by other general revenues. The largest general revenue category is tax revenue. Table A-2 summarizes the Statement of Activity.

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the School.

Fund Balances

At June 30, 2020, the School's governmental funds reported a combined fund balance of \$18,662,118 which is an increase of \$9,145,823 from June 30, 2019.

General Fund:

The school district will end the 2019–2020 fiscal year with a fund balance of \$10,530,642 in the general fund. Of this amount \$6,130,642 has been assigned for buildings and grounds repairs, contingencies and fund balance appropriations, \$8,959 is non spendable fund balance and \$4,391,041 is unassigned fund balance.

Capital Project Fund:

In 2004, the school district borrowed \$37M in General Obligation Bonds for the construction of a new grade 5-6 Intermediate School, a new maintenance building and renovation and addition projects at the High School. This was the first part of borrowing of the funds for a projected project of approximately \$60M. The school district borrowed \$10M in March of 2009, another \$10M in February of 2010, and \$7.5M in February of 2012. In 2016-2017 and 2017-2018 transfers were made from the General Fund to the Capital Project Fund in the amounts of \$1,196,805 and \$500,000. In 2020 all remaining bond issues were refinanced and an additional \$7.5 million was borrowed to fund deferred maintenance projects. Ending restricted fund balance in the capital projects fund is \$8,131,476 at June 30, 2020.

CAPITAL ASSET AND DEBT ADMINISTRATION

At June 30, 2020, the School had \$67,586,888 in Governmental Funds and \$50,301 in Business Type invested in a broad range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$661,238 Governmental Activities and a net decrease of \$18,658 from Business Activities from June 30, 2019. See notes to the financial statements for additional information.

Debt Administration

Bond Obligations – As of June 30, 2020 the Octorara Area School District has outstanding bond obligations of \$49,000,000.

Other obligations include accrued vacation pay and sick leave for specific employees of the school amounting to \$1,271,320, net pension liability of \$64,887,000 and other postemployment benefits of \$11,176,721.

See notes to the financial statements for additional information.

FACTORS BEARING ON OCTORARA AREA SCHOOL DISTRICT'S FUTURE

Factors that will affect the future finances of the School are employee health benefits, PSERS projected retirement rates, State mandates special education costs and uncertain federal and state revenues.

The 2020-21 budget included projected economic effects of the COVID-19 pandemic on both revenues and expenditures. Local revenues were the most effected resulting in decreases in Interest earnings, earned income tax and other miscellaneous local revenues. Expenditures needed to safely open the District in the Fall of 2020 are hard to predict and may exceed appropriations. The 2020-21 budget includes budgetary use of fund balance in the amount of \$2,080,761.

ACT 1 of 2006 provides for the school district to limit budget increases to an establish index that changes from year to year. The budget process is limited unless budget exceptions are approved by the PA Department of Education. The index provided by the PA Department of Education for the 2021-22 fiscal year has been established at 3.8%. This low index will make it difficult to balance the 2021-22 budget without using a portion of the Districts fund balance.

CONTACTING THE SCHOOL FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, parents, students, investors and creditors with a general overview of the School's finances and to show the accountability for the money it receives. If you have questions about this report or wish to request additional financial information, please contact the Business Office, Octorara Area School District, 228 Highland Road, Suite #1, Atglen, PA 19310.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2020

For the Year Ended June 30, 2020						
Amounts reported for governmental activities in the statement of activities are different because:						
NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS		\$	9,145,823			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.						
Capital outlays Less: depreciation expense	\$ 1,928,291 (2,589,529)		(661,238)			
Because some property taxes will not be collected for several months after the District's year end, they are not considered as "available" revenues in the governmental funds.			37,374			
Issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.						
Repayment of bond principal Issuance of bonds Bond discount Bond premium Payment to Refunding Debt Escrow Agent Amortization of Bond Discount Amortization of bond premium Amortization of deferred charge on bond refunding	4,555,000 (53,555,000) 468,606 (6,225,912) 51,315,000 (19,162) 295,293 (158,624)		(3,324,799)			
Interest expense incurred on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

The Octorara Area School District (the "District") is a unit established, organized, and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968). The Octorara Area School District is a combination of three boroughs and five townships in Lancaster and Chester Counties. Lancaster County consists of Christiana Borough and Sadsbury Township, while Chester County consists of the boroughs of Parkesburg and Atglen and the townships of West Sadsbury, West Fallowfield, Highland, and Londonberry. The District is governed by a board of nine school directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The board of school directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person residing in such district, between the ages of 6 and 21 years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any school herein provided, or to pay any school indebtedness which the School District is required to pay, or to pay an indebtedness that may at any time hereafter be created by the School District, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Octorara Area School District have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting principles are as follows:

A. Reporting Entity

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the District and its component units.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

A. Reporting Entity - continued

The District used guidance contained in generally accepted accounting principles to evaluate the possible inclusion of related entities (authorities, boards, councils, etc.) within its reporting entity. Accounting principles generally accepted in the United States of America require that the reporting entity consists of the primary government and legally separate entities for which the primary government is financially accountable. In addition, the primary government may determine through the exercise of management's professional judgment that the inclusion of a legally separate entity that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading. In such instances, that legally separate entity should be included as a component unit if the nature and significance of their relationship with the primary government or other component units are such that the exclusion from the financial reporting entity would render the financial reporting entity's financial statements incomplete or misleading. In evaluating how to define the reporting entity, management has considered all potential component units.

Based on the foregoing criteria, the District has determined it has no component units.

Governments commonly enter into special arrangements with each other to provide or obtain needed services. A common type of such an arrangement is a joint venture. In addition to joint ventures, governments also enter into contracts to plan for and address certain activities for their mutual benefits; i.e., a jointly governed organization. The District has one of each of these relationships:

Joint Venture: The District is a participating member of the Chester County Technical College High School (formerly the Center for Arts and Technology). See Note 11 for details of involvement and financial information of the joint venture.

Jointly Governed Organizations: The District is a participating member of the Chester County Intermediate Unit (CCIU). The CCIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of school directors of each participating district must approve CCIU's annual operating budget.

The CCIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no ongoing financial interest or responsibility in the CCIU. The CCIU contracts with participating districts to supply special education services, computer services, and to act as a conduit for certain federal programs.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

B. Basis of Presentation - Government-Wide Financial Statements

Government-wide financial statements (i.e., the statement of net position and the statement of activities) display information about the reporting entity, except for its fiduciary activities. All fiduciary activities are reported only in the fund financial statements. The government-wide statements include separate columns for the governmental and business-type activities of the primary government, as well as any discretely presented component units. Governmental activities which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions are reported separately from business-type activities which rely, to a significant extent, on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function to the District are offset by the program revenues related to that function. Direct expenses are those that are directly related to and clearly identified with a function. Program revenues include 1) charges to customers or others who purchase, use, or directly benefit from services or goods provided by a given function; or 2) grants and contributions that are restricted to meet the operational or capital requirements of a function. Taxes and other items properly not included in program revenues are reported as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are the contributions made to any component units from the District's governmental funds and transfers between governmental funds and business-type and fiduciary funds. Elimination of these contributions would distort the direct costs and program revenues reported for the various functions concerned.

C. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Fiduciary funds are reported by fund type.

The District Reports the Following Major Governmental Funds:

General Fund: This fund is established to account for resources devoted to financing the general services that the District performs. Intergovernmental revenues and other sources of revenue used to finance the fundamental operations of the District are included in this fund. The fund is charged with all costs of operating the District for which a separate fund has not been established.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Fund Financial Statements - continued

The District Reports the Following Major Governmental Funds: - continued

Capital Projects Fund: This fund is established to account for financial resources to be used for the acquisition or construction of major capital equipment and facilities (other than those financed by proprietary funds).

Debt Service Fund: This fund accounts for resources accumulated and payments made for principal and interest on general obligation debt of governmental funds.

The District has the Following Major Enterprise Fund:

Food Service Fund: This fund accounts for all revenues, food purchases, and costs and expenses for the food service program. The food service fund is the District's only major enterprise fund where the intent of the governing body is that the costs of providing food services are covered by user charges and subsidies received.

Additionally, the District Reports the Following Fund Types:

Internal Service Fund: This fund accounts for the financing of services provided by one department or agency to the other governmental units. The District's internal service fund is a major proprietary fund used to account for the activity related to the District's self-insured medical, dental, vision, and prescription drug plan. Since this fund supports largely governmental activities, its activity is included in governmental activities in the government-wide statements.

Fiduciary Funds: The District's fiduciary funds are trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust funds are the private-purpose trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's student activity fund is an agency fund.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as interfund receivables and payables. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

C. Basis of Presentation - Fund Financial Statements - continued

Further, certain activity occurs during the year involving transfers of resources between funds. In the fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. If time eligibility requirements are not met, deferred inflows of resources would be recorded. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Measurement Focus and Basis of Accounting - continued

The proprietary fund is reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service fund and internal service fund are charges to customers for sales and services provided. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Federal and state subsidies are considered non-operating revenues as no exchange transaction occurs.

The trust funds are reported using the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

E. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the board shall annually, but not later than 110 days before the primary election, decide the budget option to be used for the following fiscal year. The board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

Accelerated Budget Process Option

Under this option, a preliminary budget must be adopted 90 days prior to the primary election. The preliminary budget must be available for public inspection at least 20 days prior to the budget adoption. The board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption.

If the primary budget exceeds the increase authorized by the Index, an application for an exception may be filed with the Pennsylvania Department of Education (PDE) and made available for public inspection. The board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The board shall annually adopt the final budget by a majority vote of all members of the board prior to June 30.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

E. Budgetary Process - continued

Board Resolution Option

Under the Board Resolution Option, the board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The board shall annually adopt the final budget by a majority vote of all members of the board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the school board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

F. Financial Position

1. Cash and Cash Equivalents

For purposes of the statement of cash flows, the proprietary fund type considers all highly-liquid investments with a maturity of three months or less when purchased to be cash equivalents.

2. Investments

Investments are valued at fair value in accordance with Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application, except for investments in external investment pools, which are valued at amortized costs if required criteria are met as outlined in Governmental Accounting Standards Board Statement No. 79, Certain External Investment Pools and Pool Participants.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

3. Interfund Transactions

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year are referred to as "interfund receivables/payables." Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as "internal balances."

4. Inventories and Prepaid Items

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

Inventories of the governmental funds, consisting principally of textbooks and instructional supplies, are not valued since it is the policy of the District to charge these items to expense upon acquisition.

Inventories of the Enterprise Fund consisting of food and paper supplies are carried at cost, using the first-in, first-out method. Federal donated commodities are valued at their fair market value as determined by the U.S. Department of Agriculture at the date of donation. The inventories on hand at June 30, 2020, consist of the following:

Purchased food and supplies	\$ 32,399
Donated commodities	 22,447
	\$ 54,846

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenses/expenditures when consumed rather than when purchased.

5. Capital Assets, Depreciation, and Amortization

The District's capital assets with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. Proprietary capital assets are also reported in their respective financial statements. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at the estimated acquisition value of the item at the date of donation.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

5. Capital Assets, Depreciation, and Amortization - continued

The District generally capitalizes assets with cost of \$1,500 or more as purchase and construction outlays occur. Management has elected to include certain homogeneous asset categories with individual assets less than \$1,500 as composite groups for financial reporting purposes. Assets purchased or constructed with long-term debt may be capitalized regardless of the threshold established. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Construction in progress is stated at cost and consists primarily of costs incurred on construction projects. No provision for depreciation is made on construction in progress until the assets are complete and placed into service. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Estimated useful lives for depreciable assets are as follows:

Assets	Years
Building and building improvements	20 - 50
Site improvements	10 - 20
Furniture and equipment	5 - 10

6. Valuation of Long-Lived Assets

Long-lived assets to be held and used are required to be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In general, any long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell. The District periodically evaluates the recoverability of its long-lived assets, including real estate and improvements and deferred costs, using objective methodologies. Such methodologies include evaluations based on cash flows generated by the underlying assets or other determinants of fair value. None of the District's long-lived assets were considered to be impaired as of June 30, 2020.

7. Unearned Revenues

Revenues that are received but not earned are reported as unearned revenues in the government-wide, governmental and proprietary fund financial statements. Unearned revenues arise when resources are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has legal claim to the resources, the liability for unearned revenue is removed from the respective financial statements and revenue is recognized.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

8. Compensated Absences

District policies permit employees to accumulate earned but unused vacation, personal and sick days based on employment agreements. Payments for vacation, sick pay, and personal leave are expensed as paid in the governmental fund statements. Accumulated vacation, personal and sick leave that is expected to be liquidated with expendable available financial resources and that has matured is reported as an expenditure and a fund liability in the governmental fund that will pay it. Accumulated vacation, personal or sick leave that is not expected to be liquidated with expendable available financial resources and that has not matured is reported as a long-term liability in the proprietary funds and the government-wide financial statements and is expensed as incurred.

9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activity columns in the statement of net position. This same treatment also applies to proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Other bond issuance costs are expensed at the time the debt is issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and original issue discounts or premiums are reported as other financing sources and uses. Issuance costs and underwriter's discount, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Pension

The District contributes to the Public School Employees Retirement System (PSERS), a cost-sharing multiple-employer defined benefit pension plan. The District accounts for the plan under the provisions of GASB Statement No. 68, which establishes standards for the measurement, recognition, and display of pension expense and related liabilities, deferred outflows and deferred inflows of resources related to pension, certain required supplementary information, and note disclosures.

For the purpose of measuring net pension liability, deferred outflows of resources, and deferred inflows of resources related to pension and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refund of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

11. Other Postemployment Benefits (OPEB)

The District's other postemployment benefit plans are accounted for under the provisions of GASB Statement No. 75, which establishes standards for the measurement, recognition, and display of other postemployment benefit expense and related liabilities, deferred outflows and deferred inflows of resources related to other postemployment benefits, certain required supplementary information, and note disclosures. The District provides OPEB under the following two plans:

PSERS OPEB Plan

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the PSERS and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

District OPEB Plan

The District sponsors a single-employer defined benefit OPEB plan. For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the OPEB plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, the plan recognizes benefit payments when due and payable in accordance with the benefit terms. The District OPEB plan is unfunded.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

12. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses) until then. The District has three items that qualify for reporting in this category:

A deferred charge on bond refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred outflows of resources for pension relate to the District's net pension liability and pension expense and arise from changes in assumptions, actual versus expected results, changes in benefits, variances in expected versus actual investment earnings, changes in the employer's proportion, differences between employer contributions and the proportionate share of total contributions reported by the pension plan, or changes in the internal allocation of the net pension liability between governmental and business-type activities or funds. These amounts are deferred and amortized over either a closed 5-year period or the average remaining service life of all employees depending on what gave rise to the deferred outflow. Also included are contributions made to the pension plan subsequent to the measurement date and prior to the District's year end. The contributions will be recognized as a reduction in net pension liability in the following year.

Deferred outflows of resources for other postemployment benefit liabilities relate to the District's liability for postemployment benefits other than pensions and related expenses and arise from the changes in assumptions, actual versus expected results, changes in benefits, variances in expected versus actual investment earnings, changes in the employer's proportion, differences between employer contributions and the proportionate share of total contributions reported by the plan, or changes in the internal allocation of the net other postemployment benefit liability between governmental and business-type activities or funds. These amounts are deferred and amortized over either a closed 5-year period or the average remaining service life of all employees depending on what gave rise to the deferred outflow. Also included are contributions or benefit payments made subsequent to the measurement date and prior to the District's year end. These payments will be recognized as a reduction to the net other postemployment benefit liability in the following year.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

12. Deferred Outflows/Inflows of Resources - continued

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category:

Unavailable revenue arises only under a modified accrual basis of accounting and is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source - property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Deferred inflows of resources for pension relate to the District's net pension liability and pension expense and arise from changes in assumptions, actual versus expected results, changes in benefits, variances in expected versus actual investment earnings, changes in the employer's proportion, differences between employer contributions and the proportionate share of total contributions reported by the pension plan, or changes in the internal allocation of the net pension liability between governmental and business-type activities or funds. These amounts are deferred and amortized over either a closed 5-year period or the average remaining service life of all employees depending on what gave rise to the deferred inflow.

Deferred inflows of resources for other postemployment benefit liabilities relate to the District's liability for postemployment benefits other than pensions and related expenses and arise from changes in assumptions, actual versus expected results, changes in benefits, variances in expected versus actual investment earnings, changes in the employer's proportion, differences between employer contributions and the proportionate share of total contributions reported by the plan, or changes in the internal allocation of the other postemployment benefit liability between governmental and business-type activities or funds. These amounts are deferred and amortized over either a closed 5-year period or the average remaining service life of all employees depending on what gave rise to the deferred inflow.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

13. Net Position

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets component of net position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, any deferred outflows of resources and/or deferred inflows of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted from the overall net investment in capital assets. The restricted component of net position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining component of net position is unrestricted.

The District applies restricted resources first when an expense is incurred for purposes for which both the restricted and unrestricted components of net position are available.

14. Fund Balance Policies and Flow Assumptions

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The restricted fund balance classification represents funds that are limited in use due to constraints for a specific purpose through restrictions by external parties, grant agreements, or enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The board of school directors is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The board of school directors may assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

F. Financial Position - continued

14. Fund Balance Policies and Flow Assumptions - continued

The unassigned fund balance of the general fund at the end of each fiscal year end shall not be less than 6% of the following year's projected budgeted expenditures. In any fiscal year where the District is unable to maintain this minimum reservation of fund balance as required in this section, the District shall not budget any amount of unassigned fund balance for the purpose of balancing the general fund budget until this level is achieved.

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. The District's policy does not dictate whether restricted or unrestricted is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first, followed by the unrestricted categories. The District's policy is to decide at the time an expenditure is incurred for a purpose in which unrestricted fund balance amounts are available under committed, assigned or unassigned fund balance. The decision will be made through resolution of the board of school directors which fund balances are exhausted first.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Compliance with Finance Related Legal and Contractual Provisions

The District had no material violations of finance related legal and contractual provisions.

B. Deficit Fund Balance or Net Position of Individual Funds

Deficit Net Position - Proprietary Fund (Food Service Fund)

For the year ended June 30, 2020, the accounting under GASB No. 68, Accounting and Financial Reporting for Pensions, GASB No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, and GASB No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, created a deficiency in net position at year-end of \$509,086. The District will fund this deficiency in future years through contributions to the Pennsylvania Public School Employees' Retirement Plan (PSERS) at the statutory required rate and future benefit payments.

NOTE 3 - CASH AND INVESTMENTS

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to invest funds in the following types of investments:

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (c) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Deposits in savings accounts, time deposits, or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law, therefore, shall be pledged by the depository.

Pennsylvania Act 10 of 2016 became effective May 25, 2016, and expanded the permitted investment types to include commercial paper, bankers' acceptances, negotiable certificates of deposit, and insured bank deposit reciprocals as long as certain safeguards related to credit quality and maturity are met.

The deposit and investment policy of the District adheres to state statutes. There were no deposits or investment transactions during the year that were in violation of either the state statutes or the policy of the District.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 3 - CASH AND INVESTMENTS - CONTINUED

The breakdown of total cash and investments at June 30, 2020, is as follows:

Petty cash	\$ 2,900
Cash deposits	7,474,097
Certificate of deposit	7,621
Pooled cash	17,755,230
Investments	 90,474
	\$ 25,330,322

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. The District does have a policy for custodial credit risk on deposits. At June 30, 2020, the carrying amount of the District's deposits was \$7,481,718 and the bank balance was \$8,368,459. Of the bank balance, \$250,000 was covered by federal depository insurance, and \$8,118,459 was exposed to custodial credit risk but covered by collateralization requirements in accordance with Act 72 of the 1971 Session of the General Assembly. Included in custodial credit risk for deposits is a certificate of deposit held by the District totaling \$7,621.

Pooled Cash

As of June 30, 2020, the District had the following pooled cash:

_	Maturities	Fair Value	Carrying Value
PA School District Liquid Asset Fund: Full Flex Pool MAX account balance	<1year	\$ 16,500,000 1,255,230	\$ 16,500,000 1,255,230
To	otal pooled cash		\$ 17,755,230

Certain external investments held by the District, based on portfolio maturity, quality, diversification, and liquidity measures, qualify for measurement at amortized cost at both the pool and participating government level consistent with GASB Statement No. 79. The District measures those investments, which include \$17,755,230 (PSDLAF) at amortized cost. All investments in external investment pools that are not registered with the Securities and Exchange Commission are subject to oversight by the Commonwealth of Pennsylvania.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 3 - CASH AND INVESTMENTS - CONTINUED

Pooled Cash - continued

A portion of the District's deposits were in the Pennsylvania School District Liquid Asset Fund. PSDLAF acts like a money market mutual fund in that the objective is to maintain a stable net asset value of \$1 per share, is rated by nationally recognized statistical rating organization, and is subject to an independent annual audit.

The PSDLAF Full Flex Pool, as part of the Fixed-Term Series at PSDLAF, are fixed-term investments collateralized in accordance with Act 72 and invest in assets listed above as permitted under Section 440.1 of the Public School Code of 1949. The Fixed-Term Series are fixed-term investment vehicles with maturities depending upon the maturity date of each particular Fixed-Term Series. All investments in a Fixed-Term Series by a Settlor are intended to be deposited for the full term of the particular Fixed-Term Series; however, participants in the full flex pool may remove funds without early withdrawal penalty. Whether a Fixed-Term Series has only one Settlor or more than one Settlor participating in it, each certificate of deposit in which the monies in such Fixed-Term Series are invested is registered in the name of that particular Fixed-Term Series.

The PSDMAX fund invests in U.S. treasury securities, U.S. government securities, its agencies and instrumentalities, and repurchase agreements, collateralized by such securities and contracted with highly-rated counterparties. Weighted average portfolio maturity for the fund is expected to be kept at or below 60 days. PSDMAX does not have limitations or restrictions on withdrawals.

As of June 30, 2020, the entire PSDLAF book balance of \$17,755,230 is considered to be a cash equivalent for presentation on the government-wide and fund financial statements.

Investments

As of June 30, 2020, the District had the following investments:

_	<u>Maturities</u>		ir Value	Level	
Oppenheimer Global Strategic Income Fund	N/A	\$	6,541	1	
Oppenheimer Global Allocation Fund Class A	N/A		22,849	1	
U.S. Government Securities Class A - American Funds	N/A		22,513	1	
Eaton Vance Floating Rate Advantage Fund	N/A		15,441	1	
Fidelity Advisor Government Income Fund Class A	N/A		10,983	1	
MFS Utilities Fund Class A	N/A		12,223	1	
			90,550		
Less: re	conciling items		(76)		
То	tal investments	\$	90,474		

The District's investment carrying value of \$90,550 for the year ended June 30, 2020, is assessed using Level 1 inputs based on actively traded markets.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 3 - CASH AND INVESTMENTS - CONTINUED

Interest Rate Risk

The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has an investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2020, the District's investments were rated as:

Investments	Standard & Poor's
PA School District Liquid Asset Fund	AAAm
Oppenheimer Global Strategic Income Fund	*
Oppenheimer Global Allocation Fund Class A	*
U.S. Government Securities Class A - American Funds	*
Eaton Vance Floating Rate Advantage Fund	*
Fidelity Advisor Government Income Fund Class A	*
MFS Utilities Fund Class A	*

^{*} Mutual funds not subject to credit rating

Concentration of Credit Risk

The District does have a policy that would limit the amount they may invest in any one issue. The District's investments in mutual pools are excluded from this risk.

Custodial Credit Risk

For an investment, custodial credit is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investment subject to custodial credit risk.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 4 - TAXES RECEIVABLE AND UNAVAILABLE REVENUE

The District has eight independently elected tax collectors who have relinquished responsibility for the collection of taxes. The tax collectors have deputized a District approved financial institution for the collection of taxes on their behalf via a lockbox account.

Assessed values for real estate tax are established by the County Board of Assessment. All taxable real property was assessed at \$306,306,600 and \$686,966,953 for Lancaster and Chester County, respectively. In accordance with Act 1 of 2006, the District received \$1,127,552 in property tax reduction refunds for the 2019/2020 fiscal year. The District tax rate for the year ended June 30, 2020, was \$25.66 and \$40.79 per \$1,000 of assessed valuation for Lancaster and Chester County, respectively. The schedule for real estate taxes levied for each fiscal year is as follows:

July 1	Levy date
July 1 - August 31	2% discount period
September 1 - October 31	Face payment period
November 1 - January 14	10% penalty period
January 15	Lien date

The District, in accordance with generally accepted accounting principles, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by administration. A portion of the net amount estimated to be collectible which was measurable and available within 60 days was recognized as revenue and the balance reported as unavailable revenue under deferred inflows of resources in the fund financial statements.

The balances at June 30, 2020, are as follows:

	Gross Taxes Receivable	Allowance for Uncollectible Taxes		Uncollectibl		Net Estimated to be Collectible		-	Tax evenue cognized	 available evenue
Real estate tax Transfer tax Earned income tax	\$ 1,061,739 25,878 344,631	\$	24,310 - -	\$	1,037,429 25,878 344,631	\$	251,401 25,878 344,631	\$ 810,338 - -		
	\$ 1,432,248	\$	24,310	\$	1,407,938	\$	621,910	\$ 810,338		

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 5 - INTERGOVERNMENTAL RECEIVABLES

The following schedule represents intergovernmental receivables at June 30, 2020:

	General Fund	Enterprise - Food Service Fund	
Commonwealth of Pennsylvania:			
Retirement Subsidy	\$ 1,118,450	\$	-
Social Security Subsidy	243,166		-
Food Service Program	-		329
Vocational Ed	2,431		-
Chester County I.U Special Education	349,983		-
Federal Subsidies:			
Title I - Grants to Local Educational Agencies	86,954		-
Student Support and Academic Enrichment Program	2,679		-
COVID-19 - Child Nutrition Cluster			9,345
	\$ 1,803,663	\$	9,674

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 6 - INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS

The following is a summary of interfund receivables and payables at June 30, 2020:

	Interfund Receivable		Interfund Payable	_
General Fund Capital Projects Fund	\$	100,418	\$ 2,214,591 100,418	
Enterprise Fund - Food Service		433,141	-	
Internal Service Fund	:	1,777,853	-	
Agency Fund - Student Activities		3,597		_
	\$:	2,315,009	\$ 2,315,009	=

Interfund balances represent shared costs which have not yet been reimbursed. All will be paid within one year.

The following is a summary of interfund transfers for the year ended June 30, 2020:

	Transfers In	Transfers Out
Capital Projects Fund Debt Service Fund	\$ 7,528,172 -	\$ - 7,528,172
	\$ 7,528,172	\$ 7,528,172

Interfund transfers were made to transfer bond proceeds received for future capital projects.

Support services	490,548
Operation of noninstructional services	14,385
Unallocated depreciation	2,011,683

TOTAL DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES \$ 2,589,529

NOTE 8 - LONG-TERM LIABILITIES

The District issues general obligation bonds to provide resources for major capital improvements. The bonds are direct obligations issued on a pledge of the full faith and credit of the District as well as their general taxing authority. Bonds payable at June 30, 2020, were as follows:

General Obligation Bonds - Series of 2020:

The District is liable for general obligation bonds dated January 14, 2020, in the original principal amount of \$53,555,000. Principal maturities occur on April 1 through the year 2031. Interest rates range from 2.00% to 4.00%. The proceeds of this Bond were used to currently refund the District's outstanding General Obligation Bonds - Series of 2009B, 2014, 2015, 2016, and 2017; fund various capital projects; and pay the costs of issuing the bonds. The District realized a savings of \$1,378,528 as a result of the refunding.

\$ 49,000,000

Total bonds payable \$ 49,000,000

June 30, 2020

NOTE 8 - LONG-TERM LIABILITIES - CONTINUED

Total interest paid during the year ended June 30, 2020, was \$1,513,772. Payments on bonds and notes are made by the general fund. The compensated absence liabilities will be liquidated by the general fund. The net pension and PSERS OPEB Plan portion of the OPEB liability will be liquidated through future contributions to PSERS at the statutory rates; contributions will be made from the general and food service funds. The District OPEB Plan portion of the OPEB liability will be liquidated through future payments from the general and food service funds.

Events of Default

The District's general obligation bonds contain a provision that in the event of default of non-payment of principal and interest the School Code allows for the Commonwealth of Pennsylvania to withhold monies from the School District subsidies and pay any past due amounts directly to the paying agent for payment to the bond holders.

NOTE 9 - EMPLOYEE RETIREMENT PLANS

Employee Defined Benefit Pension Plan

General Information About the Pension Plan

Plan Description

PSERS (the System) is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania under Title 24 Part IV of the Pennsylvania General Assembly. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 9 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Employee Defined Benefit Pension Plan - continued

General Information About the Pension Plan - continued

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2.0% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after 10 years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Changes in Benefit Terms:

With the passage of Act 5 on June 12, 2017, Class T-E and T-F members are now permitted to elect a lump-sum payment of member contributions upon retirement.

Contributions

The contribution policy is set by state statute and requires contributions by active members, employers, and the Commonwealth of Pennsylvania

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 9 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Employee Defined Benefit Pension Plan - continued

General Information About the Pension Plan - continued

Contributions - continued

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class TC) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions:

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2020, was 33.36% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$6,456,729 for the year ended June 30, 2020.

The District is also required to contribute a percentage of covered payroll to PSERS for healthcare insurance premium assistance. Under the current legislation, the Commonwealth of Pennsylvania reimburses the District for no less than one-half of the employer contributions made, including contributions related to pension and healthcare (OPEB). This arrangement does not meet the criteria of a special funding situation in accordance with GASB Standards. Therefore, the net pension liability and related pension expense represents 100% of the District's share of these amounts. The total reimbursement recognized by the District for the year ended June 30, 2020, for pension and OPEB benefits was \$3,310,461.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 9 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Employee Defined Benefit Pension Plan - continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$64,887,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2018 to June 30, 2019. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2020, the District's proportion was 0.1387%, which was a decrease of 0.0029% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$6,379,547. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred		Deferred
	Outflows of		Inflows of
	Re	esources	Resources
		_

proportionate share of total contributions		162,535	-
Contributions made subsequent to the measurement date		6,456,729	-
	\$	7,718,089	\$ 4,047,825

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 9 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Employee Defined Benefit Pension Plan - continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

The \$6,456,729 reported as deferred outflows of resources resulting from District pension contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows for the years ending June 30:

2021	\$ (239,203)
2022	(1,703,879)
2023	(971,178)
2024	 127,795
	\$ (2,786,465)

Actuarial Assumptions

The total pension liability at June 30, 2019, was determined by rolling forward the System's total pension liability at June 30, 2018 to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 7.25%, includes inflation at 2.75%.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 9 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Employee Defined Benefit Pension Plan - continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

Actuarial Assumptions - continued

The PSERS pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

The PSERS Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019 is:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global public equity	20.0%	5.6%
Fixed income	36.0%	1.9%
Commodities	8.0%	2.7%
Absolute return	10.0%	3.4%
Risk parity	10.0%	4.1%
Infrastructure/MLPs	8.0%	5.5%
Real estate	10.0%	4.1%
Alternative investments	15.0%	7.4%
Cash	3.0%	0.3%
Financing (LIBOR)	(20.0%)	0.7%
	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Employee Defined Benefit Pension Plan - continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - continued

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower (6.25%) or one-percentage point higher (8.25%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	6.25%	7.25%	8.25%
District's proportionate share of the net pension liability	\$ 80,824,000	\$ 64,887,000	\$ 51,393,000

Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

Payables Related to the Plan

At June 30, 2020, the District had an accrued balance due to PSERS, including contributions related to pension and OPEB of \$1,726,098. This amount represents the District's contractually obligated contributions for wages earned in April 2020 through June 2020.

Pension Reform -Commonwealth of Pennsylvania Act 5 of 2017

On June 12, 2017, Commonwealth of Pennsylvania Act 5 of 2017 was signed into law. The legislation established a new hybrid defined benefit/defined contribution (DC) retirement benefit plan applicable to all school employees who became new members of PSERS on July 1, 2019 and thereafter. The three new plan design options under Act 5 include two hybrid plans consisting of defined benefit and defined contribution components and a stand-alone defined contribution plan. A stand-alone defined benefit plan is no longer available to new members after June 30, 2019. Contributions to the defined contribution pension plan from the District were \$17,419 for the year ended June 30, 2020.

403(b) Tax Shelter Plan

The District has established a 403(b) tax shelter plan permitting the establishment of accounts for school employees to voluntarily set aside monies to supplement their retirement income. All school employees are eligible to participate. The District does not contribute to the Plan.

Employee Defined Benefit Other Postemployment Benefit Plans

The District has other postemployment benefits (OPEB) under 2 different plans: (1) a cost-sharing, multiple employer, employee defined benefit other postemployment benefits plan administered through PSERS (PSERS OPEB Plan) and (2) a single employer defined benefit healthcare plan (District OPEB Plan). The District's aggregate net OPEB liability and deferred outflows and inflows of resources related to OPEB at June 30, 2020, are as follows:

Plan	Net OPEB Outflows of Infl		Outflows of		eferred oflows of esources
PSERS OPEB Plan District OPEB Plan	\$ 2,950,000 8,226,721	\$	281,580 2,027,299	\$	178,000 470,809
Total	\$ 11,176,721	\$	2,308,879	\$	648,809

PSERS OPEB Plan

General Information About the PSERS OPEB Plan

Health Insurance Premium Assistance Program

PSERS provides Premium Assistance which is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002, under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2019, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance Program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the Health Option Program or employer-sponsored health insurance program.

June 30, 2020

NOTE 10 - OTHER POSTEMPLOYMENT BENEFIT PLANS - CONTINUED

PSERS OPEB Plan - continued

General Information About the PSERS OPEB Plan - continued

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2019, there were no assumed future benefit increases to participating eligible retirees.

Contributions

The contribution policy is set by state statute. A portion of each employer's contribution is set aside for premium assistance. The school districts' contractually required contribution rate for the fiscal year ended June 30, 2020, was 0.84% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$162,580 for the year ended June 30, 2020.

The District is also required to contribute a percentage of covered payroll to PSERS for pension benefits. Under the current legislation, the Commonwealth of Pennsylvania reimburses the District for no less than one-half of the employer contributions made, including contributions related to pension and healthcare. This arrangement does not meet the criteria of a special funding situation in accordance with GASB Standards. Therefore, the net PSERS OPEB Plan liability and related expense represents 100% of the District's share of these amounts. The total reimbursement recognized by the District for the year ended June 30, 2020, for pension and OPEB benefits was \$3,310,461.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 10 - OTHER POSTEMPLOYMENT BENEFIT PLANS - CONTINUED

PSERS OPEB Plan - continued

PSERS OPEB Plan Liability, Expense, and Deferred Outflows and Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$2,950,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2018 to June 30, 2019. The District's proportion of the net OPEB obligation was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2020, the District's proportion was 0.1387%, which was a decrease of 0.0029% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized OPEB expense of \$127,762. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Outflows of Resources		In	Inflows of Resources	
Changes of assumptions Difference between expected and actual experience Net difference between projected and actual	\$	97,000 17,000	\$	88,000	
investment earnings		5,000		-	
Changes in proportion		-		90,000	
Contributions made subsequent to the measurement date		162,580		-	
	\$	281,580	\$	178,000	

The \$162,580 reported as deferred outflows of resources related to OPEB resulting from District contributions made subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows for the years ending June 30:

\$ (17,000)
(17,000)
(18,000)
(18,000)
10,000
 1,000
\$ (59,000)
\$

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 10 - OTHER POSTEMPLOYMENT BENEFIT PLANS - CONTINUED

PSERS OPEB Plan - continued

PSERS OPEB Plan Liability, Expense, and Deferred Outflows and Inflows of Resources Related to OPEB - continued

Actuarial Assumptions

The total OPEB liability as of June 30, 2019, was determined by rolling forward the System's total OPEB liability as of June 30, 2018 to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 2.79% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre-age 65 at 50%
 - Eligible retirees will elect to participate Post-age 65 at 70%

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2017, determined the employer contribution rate for fiscal year 2019.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 10 - OTHER POSTEMPLOYMENT BENEFIT PLANS - CONTINUED

PSERS OPEB Plan - continued

PSERS OPEB Plan Liability, Expense, and Deferred Outflows and Inflows of Resources Related to OPEB - continued

Actuarial Assumptions - continued

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

The PSERS Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019 is:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Cash	13.2%	0.20%
US Core fixed income	83.1%	1.00%
Non-US developed fixed	3.7%	0.00%
	100.0%	

Discount Rate

The discount rate used to measure the total OPEB liability was 2.79%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.79%, which represents the S&P 20-year Municipal Bond Rate at June 30, 2019, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2019, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2019, 93,339 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2019, 780 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the District's proportionate share of the net OPEB liability for the June 30, 2019 measurement date, calculated using current Healthcare cost trends as well as what the District's proportionate share of the net OPEB liability would be if the health cost trends were one-percentage point lower or one-percentage point higher than the current rate:

	Current Trend			
	1% Decrease	1% Increase		
	(Between	(Between	(Between	
	4% to 6.50%)	5% to 7.50%)	6% to 8.50%)	
District's proportionate share of the

Payables Related to the Plan

At June 30, 2020, the District had an accrued balance due to PSERS of \$1,726,098, including balances related to pension and OPEB. This amount represents the District's contractually obligated contributions for wages earned in April 2020 through June 2020.

District OPEB Plan

General Information About the District OPEB Plan

Plan Description

Octorara Area School District administers a single-employer defined benefit healthcare plan (the OPEB Plan). The District OPEB Plan provides medical, prescription drug, dental, and vision insurance for eligible retirees through the District's health insurance plan, which covers both active and retired members until the member reaches Medicare age. Benefit provisions are established through negotiation with the District and the unions representing the District's employees. The OPEB Plan does not issue a publicly available financial report and no assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board Statement No. 75 to pay related benefits.

NOTE 10 - OTHER POSTEMPLOYMENT BENEFIT PLANS - CONTINUED

District OPEB Plan - continued

General Information About the District OPEB Plan - continued

Benefits Provided - continued

Act 110/43 Eligibility: All employees are eligible for this benefit upon retirement with 30 years of PSERS service or upon superannuation retirement. This is required under state statute.

Act 110/43 Coverage and Premium Sharing: Retired employees are allowed to continue coverage for themselves and their dependents in the employer's group health plan until the retired employee reaches Medicare age. In order to obtain coverage, retired employees must provide payment equal to the premium determined for the purpose of COBRA.

PSERS Retirement:

- 1) For individuals who are members of PSERS prior to July 1, 2011, an employee is eligible for PSERS retirement if he or she is eligible for either: a) PSERS early retirement with under 62 with 5 years of PSERS service or b) PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with 1 year of PSERS service or 35 years of PSERS service regardless of age.
- 2) For individuals who became members of PSERS on or after July 1, 2011, an employee is eligible for PSERS retirement if he or she is eligible for either: a) PSERS early retirement while under 65 with 10 years of PSERS service or b) PSERS superannuation retirement upon reaching age 65 with 3 years of PSERS service or upon attainment of a total combination of age plus service equal to or greater than 92 with a minimum of 35 years of PSERS service.
- 3) All individuals are eligible for a special early retirement upon reaching age 55 with 25 years of PSERS service.

Coordination with Medicare benefits: For Medical coverage, Members or Spouses over 65 must enroll in a Medicare Supplement Plan provided by the district in order to continue coverage past age 65. Individuals must live within a specified region in order to be eligible for the Medicare Supplement Plan.

Employees Covered by Benefit Terms

At July 1, 2018, the date of the most recent actuary valuation, the following employees were covered by the benefit terms:

Active participants	240
Retired participants	89
	<u> </u>
Total	329

District OPEB Plan - continued

OPEB Liability

Actuarial Assumptions and Other Inputs

The total OPEB liability as of July 1, 2019, was determined by rolling forward the District's total OPEB liability as of July 1, 2018 to July 1, 2019, using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

- Actuarial cost method Entry Age Normal.
- Salary increases 2.50% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies by age from 2.75% to 0%.
- Discount rate 3.36% based on the Standard & Poor's Municipal Bond 20 Year High Grade Rate Index at 7/1/19.
- Mortality rates Separate rates are assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by the Buck Modified 2016 projection scale to reflect mortality improvement.
- Healthcare cost trend rates 6.0% in 2018, and 5.5% in 2019 through 2021. Rates gradually decrease from 5.4% in 2022 to 3.8% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.
- Participation rates 100% of Administrators and 60% of all other groups are assumed to elect coverage. Upon reaching age 65, 50% of retirees are assumed to continue coverage.

The actuarial assumptions were selected using input from the District based on actual experience.

OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB - continued

The \$162,088 reported as deferred outflows of resources related to OPEB liabilities resulting from benefit payments made subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows for the years ending June 30:

2021	\$ 207,608
2022	207,608
2023	207,608
2024	207,608
2025	207,608
Thereafter	 356,362
Total	\$ 1,394,402

NOTE 11 - JOINT VENTURE

The District is one of 12 member school districts of the Chester County Technical College High School (CCTCHS, formerly the Center for Arts and Technology). CCTCHS is controlled and governed by a joint board, which is composed of representative school board members of the participating schools. Direct oversight of CCTCHS operations is the responsibility of the joint board. The District is not responsible for deficits, nor is the District entitled to operating surplus. The District is a guarantor of outstanding debt, but the amount is immaterial. The District's share of annual operating and capital costs for CCTCHS fluctuates based on the percentage of enrollment and is reflected as intergovernmental expenditures of the General Fund. Since there is no clear residual equity, no asset has been reflected in the District's financial statements.

Summary financial information as of June 30, 2019 (the most recent information available) is as follows:

CCTCHS - Governmental Activities	
Total assets and deferred outflows of resources Total liabilities and deferred inflows of resources	\$ 17,032,166 48,838,793
Total net position (deficit)	\$ (31,806,627)

Separate financial statements of the Chester County Technical College High School have been prepared and are available at the Center's administrative offices.

The District's share of annual operating and capital costs for the year ended June 30, 2020 were \$1,046,618.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 12 - CONTINGENT LIABILITIES AND COMMITMENTS

The District receives federal and state funding through a number of programs. Payments made by these sources under contractual agreements are provisional and subject to redetermination based on filing reports and audits of those reports. Final settlements due from or to these sources are recorded in the year in which the related services are performed. Any adjustments resulting from subsequent examinations are recognized in the year in which the results of such examinations become known. District officials do not expect any significant adjustments as a result of these examinations.

The District has entered into an agreement for the transportation of students. The Agreement is for the period of July 1, 2018 through June 30, 2023. The contractor provides all equipment, fuel and labor necessary. The cost for the transportation services is determined based on routes and supplemental transportation provided, plus an annual fee for transportation management services.

NOTE 13 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs except for workers' compensation, for which the District retains risk of loss. The District monitors its insured programs and increases insurance coverage as needed. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years. There were no significant reductions in insurance coverages for the 2019/2020 year.

Currently, the District is self-insured for medical, dental, vision, and prescription insurance for employees and their dependents. The District uses a third-party administrator to provide consulting and administrative services to process claims. All claims are accounted for in the general fund. For the year ended June 30, 2020, the District has coverage for claims in excess of \$200,000 per person with an annual aggregate limit of \$1,000,000.

The following tables present the components of the District's benefit obligation and the related changes in the District's benefit obligations at June 30:

	2020	2019		
Claims payable	\$ 408,080	\$	450,024	
		_		

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 13 - RISK MANAGEMENT - CONTINUED

Changes in benefit obligations are as follows for the year ended June 30:

	2020	2019
Claims payable, beginning of year Benefits earned Claims paid	\$ 450,024 3,195,596 (3,237,540)	\$ 911,524 3,306,068 (3,767,568)
Claims payable, end of year	\$ 408,080	\$ 450,024

Claims payable are included with the general fund accounts payable.

NOTE 14 - FUND BALANCE

Details of the District's governmental fund balance reporting and policy can be found in Note 1, Summary of Significant Accounting Policies. Fund balance classifications for the year ended June 30, 2020, were as follows:

General Fund

The general fund has nonspendable funds of \$8,959 relating to prepaid expenditures, assigned funds of \$6,130,642 consisting of: \$3,549,881 for building/ground repairs, \$500,000 for contingencies, and \$2,080,761 for the 2020/2021 budget appropriations, and unassigned fund balance of \$5,791,557. The assignments were authorized by the District's finance committee.

Capital Projects

The capital projects fund has restricted funds of \$8,131,476 consisting of \$7,379,240 of unspent bond funds, and \$752,236 comprised of surplus money transferred from the general fund for the acquisition or construction of capital facilities and qualifying capital assets as authorized by Municipal Code P.L. 145 Act of April 30, 1943.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2020

NOTE 15 - NEW ACCOUNTING PRONOUNCEMENTS

The Governmental Accounting Standards Board (GASB) has issued the following standards which have not yet been implemented:

- Statement No. 84, Fiduciary Activities This statement establishes criteria for identifying fiduciary
 activities and describes four types of fiduciary funds, as well as provides for recognition of a liability to
 the beneficiaries in a fiduciary fund when an event has occurred that compels the government to
 disburse fiduciary resources. This statement is effective for the District's fiscal year ending June 30,
 2021.
- Statement No. 87, Leases This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. This statement is effective for the District's fiscal year ending June 30, 2022.
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period This statement establishes accounting requirements for interest cost incurred before the end of a construction period. Under this statement, interest cost incurred before the end of a construction period must be recognized as an expense in the period in which the costs is incurred for financial statements prepared using the economic resources measurement focus. This statement is effective for the District's fiscal year ending June 30, 2022.
- Statement No. 90, Majority Equity Interests an Amendment of GASB Statements No. 14 and No. 61 This statement modifies previous guidance for reporting a government's majority equity interest in a legally separate organization and provides guidance for reporting a component unit if a government acquires a 100% equity interest in that component unit. This statement is effective for the District's fiscal year ending June 30, 2021.
- Statement No. 96, Subscription-Based IT Arrangements This statement establishes guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset an intangible asset and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. This statement is effective for the District's fiscal year ending June 30, 2023.

The District has not yet completed the analysis necessary to determine the actual financial statement impact of these new pronouncements.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION

For the Year Ended June 30, 2020

BUDGETARY DATA

The budget for the general fund is adopted on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2019/2020 budget transfers.

Excess of Expenditures Over Appropriations in Individual Funds

No individual governmental fund required to have a legally adopted budget had an excess of expenditures over appropriations.

Budgetary Compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year end; therefore, it does not have any outstanding encumbrances at June 30, 2020. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY AND RELATED RATIOS - PENSION PLAN

LAST TEN FISCAL YEARS

	2020	2019	2018	2017	2016	2015	2014
District's proportion of the collective net pension liability	0.1387%	0.1416%	0.1423%	0.1445%	0.1445%	0.1456%	0.1410%
District's proportionate share of the collective net pension liability	\$ 64,887,000	\$ 67,975,000	\$ 70,280,000	\$ 71,610,000	\$ 62,591,000	\$ 57,630,000	\$ 57,720,000
District's covered payroll	\$ 19,126,705	\$ 19,063,690	\$ 18,941,293	\$ 18,714,944	\$ 18,586,107	\$ 18,578,965	\$ 18,097,711
District's proportionate share of the net pension liability as a percentage of its covered payroll	339.25%	356.57%	371.04%	382.64%	336.76%	310.19%	318.94%
Plan fiduciary net position as a percentage of the total pension liability	55.66%	54.00%	51.84%	50.14%	54.36%	57.24%	54.50%

The District's covered payroll noted above is as of the measurement date of the net pension liability, which is one year prior to the fiscal year end.

NOTES TO SCHEDULE

Changes of Benefit Terms

With the passage of Act 5 Class T-E and T-F members are now permitted to elect a lump-sum payment of member contributions upon retirement.

Changes of Assumptions

None.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information for only those years available is shown.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended June 30, 2020

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal awards activity of the Octorara Area School District under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Octorara Area School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Octorara Area School District.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to the reimbursement. Negative amounts shown on the Schedule represent adjustment or credits made in the normal course of business for amounts reported as expenditures in prior years.

NOTE 3 - DE MINIMIS RATE FOR INDIRECT COSTS

The District did not elect to use the de minimis rate for indirect costs.

NOTE 4 - ACCESS PROGRAM

The District participates in the ACCESS Program which is a medical assistance program that reimburses local educational agencies for direct eligible health-related services provided to enrolled special needs students. Reimbursements are federal source revenues but are classified as fee-for-service and are not considered federal financial assistance. The amount of ACCESS funding classified as fee-for-service and recognized for the year ended June 30, 2020 was \$117,157.

NOTE 5 - FOOD COMMODITIES

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. At June 30, 2020, the District had \$22,447 of food commodity inventory.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of School Directors Octorara Area School District Atglen, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Octorara Area School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Octorara Area School District's basic financial statements, and have issued our report thereon dated December 14, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Octorara Area School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Octorara Area School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Octorara Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Octorara Area School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of School Directors Octorara Area School District Atglen, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited Octorara Area School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Octorara Area School District's major federal programs for the year ended June 30, 2020. Octorara Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Octorara Area School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Octorara Area School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Octorara Area School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Octorara Area School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Octorara Area School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Octorara Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Octorara Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
