Thomas L. Newcome, II Ed.D
Superintendent of Schools

Dear Parents,

All students in grades 1, 3, 7 and 10 are required by the Pennsylvania Department of Health to have a dental examination.

This examination may be completed by your family dentist at your expense. Your child will benefit from a dental checkup which can include dental x-rays, tooth charting, cleaning of teeth and a fluoride treatment plus any dental problems can be addressed immediately. If you elect to see your family dentist, please have the dental form below filled out and returned to the school.

If a dental form is not received, our dental hygienist will complete a dental evaluation sometime during the school year.

Thank you for your cooperation,

Mrs. Robinson

School Dental Hygienist

Student's Name	Student's Address	Grade

To Be Completed By Dentist:

Date of Most Recent Examination: _____

Report of Examination: _____

Have Needed Corrections Been Made? _____
